Battery Powered CD Player

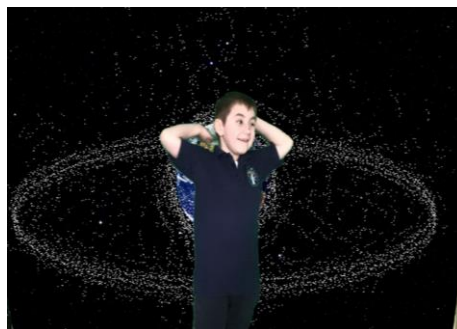

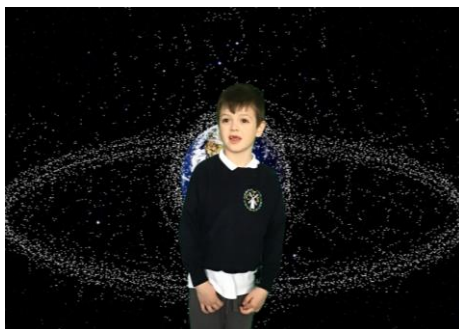

If anyone has a battery powered CD player that they are able to donate, Ash Class would be ever so grateful.

Green Screen

Willow Class have been learning the BSL signs for 'the weather'. They have also been working on selecting appropriate clothing for different weather conditions. They made sensory weather bottles and used the green screen to add a little magic to their lesson.

Maple Class are focusing on the topic of space this term. On Wednesday they used the Green Screen in computing to act out that they were in space! They had lots of fun during this session and enjoyed looking back at their space themed pictures.

Corbets Tey Important Dates:
